MooMoohCoin is a new meme coin created by a developer team of experts in innovation with a superior understanding of the market mechanism and value-add MooMoohCoin (Moo). It is built on the Binance Smart Chain (BEP-20), one of the world's most trusted and popular chains.

MooMooh Coin : How It Works

1. MooNFT When you buy MooMoohCoin worth every \$100, you will receive a random box to open MooNFT with a 6-digit serial number (for winning MooLotto prizes) which you can collect or combine to participate in activities to win many more prizes in the future or can bring MooNFT to sell in Opensea.io immediately.

2. MooLotto When you open the MooNFT random box, you will receive a 6-digit serial number to win a MooLotto prize. ***e.g.** if your referred friend wins 1st prize of MooLotto = \$1,000,000 You will receive a Matching Lotto Bonus of 10% = \$100,000 and referrals above 9 upper levels (upline) will receive every 1% = \$1,000
